

*****A Note About Coronavirus (Covid-19) and Visiting Viewpoint Centre*****

Taking it day by day...

Like most settings, we are operating a business as usual policy until further notice, so please be assured we are open and sessions are happening as normal.

With all the media attention focused on the coronavirus at the moment we wanted to take a moment to update you all on our position.

We are carefully monitoring and following government advice and guidelines:

<https://www.gov.uk/government/collections/coronavirus-covid-19-list-of-guidance>

- In order to mitigate any risk from coronavirus we will be asking all visitors to wash their hands for 20 seconds with hot water and soap upon arrival. This is to avoid any spread through our equipment. We clean and disinfect regularly touched objects and surfaces using our regular cleaning products after each session
- All our staff are taking necessary precautions to keep both our clients and themselves protected. This will include self-isolating if necessary.
- We kindly ask that if you have recently travelled abroad (or been around someone who has) or are feeling unwell, to please let us know PRIOR to your visit so that we can discuss with you the best course of action.
- The most common symptoms of coronavirus (COVID-19) are recent onset of a new continuous cough and/or high temperature above 37.8. If you have these symptoms, however mild, please inform us prior to your session and stay at home.

In the meantime, keep calm and carry on washing your hands. Soap kills the virus!
